Customised Board Programmes

ADVANCING BOARD KNOWLEDGE, SKILLS AND INSIGHTS

For over 25 years, Singapore Institute of Directors has been dedicated to advancing the directorship profession and championing good governance as the national association for company directors in Singapore. Our customised board development and training programmes are designed to equip boards with the critical knowledge, skills and insights needed for effective governance.

Tailored to meet the unique needs of your organisation, our customised training solutions help boards navigate complex challenges and drive strategic success. We work with public listed companies, multinational corporations, subsidiary firms, investee companies, charities and nonprofit organisations.

Led by experienced faculty who bring real-world experience from their boardroom roles or field practice, SID's training sessions combine interactive case studies and expert-led insights to equip directors with the knowledge and tools they need to thrive in today's dynamic business environment.

Directors should understand the company's business as well as their directorship duties (including their roles as executive, non-executive and independent directors). Directors are provided with opportunities to develop and maintain their skills and knowledge at the company's expense.

OUR APPROACH

Flexible and Co-curated Solutions

Our programmes are fully customisable to meet your board's specific needs, whether the content, speakers, delivery format or venue. We align our courses with your schedule and outcome requirements to ensure maximum impact.

Dynamic Programme Structure

Our programmes prioritise engagement and active participation through case studies, collaborative group work, and interactive panel discussions and dialogues. Participants experience a balanced mix of theory and practice with flexible session formats.

Pre- and Post-Session Learning Support

Participants can benefit from our supplementary resources, including pre-session reading packs and post-session take-aways. These add-ons are provided upon request, and support learning by setting the context and consolidating key points.

FACULTY

“What sets SID's programmes apart is that we as faculty members bring down-in-the-trenches experience across a wide spectrum of boardrooms. In my case, I combine pragmatic insights gleaned from a 15-year journey as an independent director, with programme design skills honed as an adjunct professor and educator. My aim is to facilitate engaging, thought-provoking experiences that challenge participants to keep raising the bar on governance.

Su-Yen Wong
Past Chair, SID
Experienced chair and independent director of listed and nonprofit firms

“The SID is the largest national network for board directors in Singapore, with international affiliations and resources to build companies and communities that can make a meaningful impact on the world. I am thrilled to be part of SID faculty where I share my insights and frameworks drawn from board and leadership experiences across multiple industries. My goal is to help train and build the next generation of board members equipping them with the skills for effective governance, performance, and transformational leadership.

Colin Low
Independent director, AET Tankers and Jason Marine
Independent non-executive director of listed companies and senior board adviser in global organisations

“SID's custom board programmes are designed to provide tailored solutions to address the pressing issues faced by boards and senior leaders. The engaging sessions and professional facilitation help foster meaningful discussions that accelerate decision-making and inspire action. SID's ability to design content specific to client needs makes it a natural choice for boards seeking to strengthen their governance and leadership capabilities.

John Lim
Past Chair and Honorary Fellow, SID
Experienced chair and appointed CG Expert for the ASEAN CG Scorecard
