Covid-19 is creating unprecedented disruption throughout our lives and the global economy. Customer demand, supply chains, financial markets, the workforce force and every aspect of business are affected. Businesses have faced crises before, but this one is uniquely complex and unpredictable. The role of board is now more important than ever. The need to make critical strategic, financial and operational decisions, to mitigate risks and seize opportunities, requires clear, considered and compassionate leadership.

Our sixth webinar “**Predictions Post Covid-19 – The New Reality**” reimagines the future for organisations. All evidence suggests that several enduring shifts will remain post recovery and many learned behaviors borne out of the crisis will become central to the new normal. As quarantine measures begin to ease, what are some predictions for the new reality in a post-COVID environment? What factors are top of mind for business leaders as they reactivate business operations? How can organisations keep up with longer-term structural changes when the economy rebounds? We share insights, predictions and practical advice on how to recover as we transition to the post COVID-19 new normal.

Course Objectives

1. Support directors by sharing practical insights from subject matter experts on key focus areas during the pandemic.
2. Raise awareness of the critical areas boards should focus on (immediate and long term).
3. Create forums where directors can interact and ask strategic questions relating to business resilience and transformation.

Webinar Series

Date	Topic
28 April 2020 Tuesday	1. Board Leadership (past event held) Explore the role of the Board and Management in leading with agility and integrity in this dynamic and highly connected landscape, while sharing ways to learn from this crisis to build a more resilient organization going forward.
12 May 2020 Tuesday	2. Navigating Liquidity (past event held) Focus on the role of the Board in building financial resilience, particularly in relation to liquidity and cash flow management, while exploring grants and relief incentives and highlighting the impact of the contract waiver measures.
26 May 2020 Tuesday	3. Business Re-modelling (past event held) Examine how Boards are experiencing a paradigm shift from the 'old world' to the 'new world' where uncertainty, volatility and connectivity have been accelerated to become the norm. Highlight the areas Boards are focusing on to transform and reshape their business in anticipation of the recovery and the new reality.
9 June 2020 Tuesday	4. Future of the Workforce (past event held) Examine workforce transformation, and how boards and management are to navigate the new ways of working. Supporting a remote workforce with capabilities and technologies is now deemed mission-critical. Boards and management need to forecast and plan to ensure their workforce has the right skills, roles and composition for the future. What are some implications in the new reality post-COVID, and some of the technology solutions that can support a flexible workforce?
23 June 2020 Tuesday	5. Risk Management (with a focus on fraud and cyber risks) (past event held) Explore the issues facing boards and management as their organisations are at risk from heightened levels of fraud, including cyber fraud. New ways of working require extra consideration around data access rights and data security profile. The risk of internal fraud will potentially increase due to remote working and associated reduced oversight and challenge.
7 July 2020 Tuesday	6. Predictions Post Covid-19 – The New Reality Explores the future for organisations as we transition to the new normal. All evidence suggests that several enduring shifts will remain post recovery and many learned behaviors borne out of the crisis will become central to the new normal. As quarantine measures begin to ease, what are some predictions for the new reality in a post-COVID environment? What factors are top of mind for business leaders as they reactivate business operations? How can organisations keep up with longer-term structural changes when the economy rebounds?
