

Business Future Series
BFS 2: Cyber Security for Directors
Cyber Risk - Getting the boardroom focus right

Target Audience	: Directors and senior management of companies seeking to better understand cyber threats and the board's response
Date	: 7 April 2022
Time	: 2.00 pm to 5.30 pm
Venue	: Ensign InfoSecurity, 30A Kallang Place, #08-01, Singapore 339213
Cost	: SID Member: S\$450 (excl. GST); S\$481.50 (incl. GST) Non-SID Member: S\$620 (excl. GST); S\$663.40 (incl. GST)
CPD Hours	: 4 hours

The cyber threat landscape is expanding, with the acceleration of digitalisation, and the rise of cyber supply chain and ransomware attacks. The board needs to ask the right questions to accurately assess the cyber security competencies within the company, and provide direction and clear responsibilities for complete visibility over the company's cyber posture. Key cyber risk considerations for the board include:

- How to avert cyber risk and reduce expected financial losses?
- Are we investing in the right cyber security capabilities?
- How to evaluate the efficacy of cyber security investments?
- Do we have cyber resilience to recover from cyber attacks?
- Is our cyber supply chain secure?

Join us, as we share how these questions can be approached in the boardroom. Participants will take part in an incident response exercise and post-analysis of their decision-making process, guided by security experts from Ensign InfoSecurity.

ABOUT THE SPEAKERS

Poh Mui Hoon
Council Member, SID

Ms Poh Mui Hoon is a Co-founder and CEO of foodtech startup, Esseplere. A CEO for many years, she has broad execution experience across various businesses. She chairs the Audit and Finance Committee for Sistic.com and is a member of the Audit and Risk Committee for Singapore Pools. She previously chaired the Technology Advisory Panel of Singapore Pools and the Digital Committee for SATA CommHealth. Ms Poh is board mentor of the London-based Criticaleye, and a member of the NTUitive's Investment Committee for Strategic Research Innovation. She was conferred the Distinguished Alumni Achievement Award by the Institute of Systems Science, NUS, in 2011 and is a Fellow of both the Singapore Institute of Directors and Singapore Computer Society.

David KOH Tee Hian
Commissioner of Cybersecurity
Chief Executive, Cyber Security Agency of Singapore

Mr David Koh is the Commissioner of Cybersecurity and Chief Executive of the Cyber Security Agency (CSA) of Singapore. He sits on the boards of the Government Technology Agency, DSO National Laboratories, the Monetary Authority of Singapore Cyber Security Advisory Panel and the Healthcare Cybersecurity Advisory Panel. Prior to his current appointments, Mr Koh served in the SAF and held various command and staff appointments in MINDEF and the SAF, including Deputy Secretary (Special Projects) and Defence Cyber Chief of MINDEF. Mr Koh is the recipient of the first Billington CyberSecurity International Leadership Award.

Tammie Tham
CEO, Ensign InfoSecurity

Ms Tammie Tham is the Group Chief Executive Officer at Ensign InfoSecurity. She is an industry veteran with 20 years of experience in the cyber security field. Prior to Ensign, she was the Chief Executive Officer and Founder of Accel Systems & Technologies. She serves on the Board of Trustees of the Singapore Institute of Technology and the Mediacorp Board. She is also the Honorary Secretary of SGTech and the Co-Chair of the Cyber Security Awareness Alliance.

Charles Ng
Executive Vice President, International Business and Consulting,
Ensign InfoSecurity

Mr Charles Ng is the Executive Vice President of International Business and Consulting at Ensign InfoSecurity. In his role, he drives the growth of Ensign's cyber security services in the region. This includes providing the boards and management of multinational companies with advice, as well as bespoke solutions to help resolve their cyber security challenges. Prior to this, he started and headed the Booz Allen Hamilton Cyber Security practice in Asia Pacific. While serving in the government, he was involved in the formation of the Cyber Security Agency of Singapore.

Nathaniel Callens
CISO, Grab

Mr Nathaniel Callens serves as chief information security officer for Grab, providing leadership for the delivery of an innovative and robust security environment. He leads a security organisation dedicated to protecting corporate information by isolating and remediating potential security threats overseeing teams such as threat defense and incident management. Mr Callens brings to the role in-depth industry expertise in managing global teams in all areas of IT with his experience working for Alaska Airline, F5 and Microsoft in areas such as information security, business intelligence and more.
